

Gildan Publishes First Stand-Alone Climate Change Disclosure Report

Montreal, Wednesday, December 21, 2022 – Gildan Activewear Inc. (GIL: TSX and NYSE) is pleased to announce that it has published its first stand-alone Climate Change Disclosure Report structured in accordance with the Task Force on Climate-Related Financial Disclosures (TCFD) recommendations. The report highlights how Gildan assesses, prepares, and integrates climate-related matters into its business processes and represents a significant step towards fully aligning with the TCFD framework by 2025, as part of Gildan’s commitments under its Next Generation ESG strategy.

“Gildan has been monitoring and addressing climate-related risks and opportunities for over 15 years and the TCFD framework allows us to better understand our physical and transitional risks, as well as opportunities to enhance our resiliency over the long-run,” said Peter Iliopoulos, Senior Vice-President, Taxation, Sustainability, and Governmental Affairs at Gildan.

Gildan’s 2022 Climate Change Disclosure Report is part of the Company’s 2022 reporting suite, which includes the [2021 Annual Report](#) and [2021 ESG Report](#) that were published earlier this year.
